TAX RELIEF FOR INDIVIDUALS AND FAMILIES “Making Work

- **Pay” Tax Credit.** The bill would cut taxes for more than 95% of working families in the United States. For 2009 and 2010, the bill would provide a refundable tax credit of up to \$400 for working individuals and \$800 for working families. This tax credit would be calculated at a rate of 6.2% of earned income, and would phase out for taxpayers with adjusted gross income in excess of \$75,000 (\$150,000 for married couples filing jointly). Taxpayers can receive this benefit through a reduction in the amount of income tax that is withheld from their paychecks, or through claiming the credit on their tax returns. *This proposal is estimated to cost \$116.199 billion over 10 years.*
- **Economic Recovery Payment to Recipients of Social Security, SSI, Railroad Retirement and Veterans Disability Compensation Benefits.** The bill would provide a one-time payment of \$250 to retirees, disabled individuals and SSI recipients receiving benefits from the Social Security Administration, Railroad Retirement beneficiaries, and disabled veterans receiving benefits from the U.S. Department of Veterans Affairs. The one-time payment is a reduction to any allowable Making Work Pay credit. *This proposal is estimated to cost \$14.225 billion over 10 years.*
- **Refundable Credit for Certain Federal and State Pensioners.** The bill would provide a one-time refundable tax credit of \$250 in 2009 to certain government retirees who are not eligible for Social Security benefits. This one-time credit is a reduction to any allowable Making Work Pay credit. *This proposal is estimated to cost \$218 million over 10 years.*

- **Increase in Earned Income Tax Credit.** The bill would temporarily increase the earned income tax credit for working families with three or more children. Under current law, working families with two or more children currently qualify for an earned income tax credit equal to forty percent (40%) of the family's first \$12,570 of earned income. This credit is subject to a phase-out for working families with adjusted gross income in excess of \$16,420 (\$19,540 for married couples filing jointly). The bill would increase the earned income tax credit to forty-five percent (45%) of the family's first \$12,570 of earned income for families with three or more children and would increase the beginning point of the phase-out range for all married couples filing a joint return (regardless of the number of children) by \$1,880. *This proposal is estimated to cost \$4.663 billion over 10 years.*
- **Increase Eligibility for the Refundable Portion of Child Credit.** The bill would increase the eligibility for the refundable child tax credit in 2009 and 2010. For 2008, the child tax credit is refundable to the extent of 15 percent of the taxpayer's earned income in excess of \$8,500. The bill would reduce this floor for 2009 and 2010 to \$3,000. *This proposal is estimated to cost \$14.830 billion over 10 years*
- **“American Opportunity” Education Tax Credit.** The bill would provide financial assistance for individuals seeking a college education. For 2009 and 2010, the bill would provide taxpayers with a new “American Opportunity” tax credit of up to \$2,500 of the cost of tuition and related expenses paid during the taxable year. Under this new tax credit, taxpayers will receive a tax credit based on one hundred percent (100%) of the first \$2,000 of tuition and related expenses (including books) paid during the taxable year and twenty-five percent (25%) of the next \$2,000 of tuition and related expenses paid during the taxable year. Forty percent (40%) of the credit would be refundable. This tax credit will be subject to a phase-out for taxpayers with adjusted gross income in excess of \$80,000 (\$160,000 for married couples filing jointly). *This proposal is estimated to cost \$13.907 billion over 10 years.*
- **Computers as Qualified Education Expenses in 529 Education Plans.** Section 529 Education Plans are tax-advantaged savings plans that cover all qualified education expenses, including: tuition, room & board, mandatory fees and books. The bill provides that computers and computer technology qualify as qualified education expenses. *This proposal is estimated to cost \$6 million over 10 years.*

- **Refundable First-time Home Buyer Credit.** Last year, Congress provided taxpayers with a refundable tax credit that was equivalent to an interest-free loan equal to 10 percent of the purchase of a home (up to \$7,500) by first-time home buyers. The provision applies to homes purchased on or after April 9, 2008 and before July 1, 2009. Taxpayers receiving this tax credit are currently required to repay any amount received under this provision back to the government over 15 years in equal installments, or, if earlier, when the home is sold. The credit phases out for taxpayers with adjusted gross income in excess of \$75,000 (\$150,000 in the case of a joint return). The bill eliminates the repayment obligation for taxpayers that purchase homes after January 1, 2009, increases the maximum value of the credit to \$8,000, and removes the prohibition on financing by mortgage revenue bonds, and extends the availability of the credit for homes purchased before December 1, 2009. The provision would retain the credit recapture if the house is sold within three years of purchase. *This proposal is estimated to cost \$6.638 billion over 10 years.*
- **Sales Tax Deduction for Vehicle Purchases.** The bill provides all taxpayers with a deduction for State and local sales and excise taxes paid on the purchase of new cars, light truck, recreational vehicles, and motorcycles through 2009. This deduction is subject to a phase-out for taxpayers with adjusted gross income in excess of \$125,000 (\$250,000 in the case of a joint return). *This proposal is estimated to cost \$1.684 billion over 10 years.*
- **Temporary Suspension of Taxation of Unemployment Benefits.** Under current law, all federal unemployment benefits are subject to taxation. The average unemployment benefit is approximately \$300 per month. The proposal temporarily suspends federal income tax on the first \$2,400 of unemployment benefits per recipient. Any unemployment benefits over \$2,400 will be subject to federal income tax. This proposal is in effect for taxable year 2009. *This proposal is estimated to cost \$4.740 billion over 10 years.*
- **Extension of AMT Relief for 2009.** The bill would provide more than 26 million families with tax relief in 2009 by extending AMT relief for nonrefundable personal credits and increasing the AMT exemption amount to \$70,950 for joint filers and \$46,700 for individuals. *This proposal is estimated to cost \$69.759 billion over 10 years.*
